

FLOWER REPUBLIC

FLOWER REPUBLIC NUTRIENTS ESSENTIALS + SUPPLEMENTS FEED CHART

We recommend our two-part Powder Essentials to meet all plant nutrient demands. In certain environments or with specific cultivars, you may incorporate one or all of our enhancements as needed. We strongly encourage a consistent use of Amplify, our biological inoculant, to promote a beneficial growing environment and nutrient mobilization. The following feed chart should act solely as a suggested feeding program. Always closely monitor your plant's response and adjust accordingly. This feed chart is recommended for all growing media and techniques.

POWDER ESSENTIALS		<i>All units in grams/Gallon (g/gal)</i>
